PROFESSIONAL CHAPTERS COMMITTEE

Chapter participation provides a unique combination of social interaction and professional dialogue among peers, in their own geographic area. Chapter members' backgrounds represent all facets of computing, from academia, research, business and industry; it will invariably focus on the kind of information and insight that cannot easily be gathered in any other way.

Objectives

- Improving standard of Engineering Education and counselling the students in the emerging new opportunities
- Encouraging and motivating the outside Class room studies /Workshops/ projects/ Seminars
- To plan, organize Technical Programs, Special Lectures, Workshops, Seminars Symposia, exhibitions for the benefit of students
- To provide common platform for students to exchange of ideas in technical topics of interest and to facilitate technical visits, project works, employment, contact with industries and academic institutions
- Encourage team spirit and self-reliance among student members

Responsibility

Professional Chapters provide members opportunity and support as they rise along their career path. AISES professional members complete the "circle of support" by serving as mentors, advisors, and role models to younger members. In their local communities, professional chapter members provide a variety of activities on a local level that support success.

- a) Playing a support/mentorship role for students in the transition from student status to professional status
- b) Organizing seminars and workshops that help develop management, communication, and other professional skills
- c) Giving access to networking resources such as community relations, scholarships, and job-opportunity awareness
- d) Encouraging participation in other technical societies
